## **HMICFRS Action Plan**

Recommendation by Decision Number

Assistant Commissioner, Grenfell Tower Investigation and LFC-0351-D

Review Team

Protective marking: **OFFICIAL** 

Publication status: Published with redactions

## **Summary**

Report LFC-0351 explains that following Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) inspection of London Fire Brigade (from 22 July to 2 August 2019), the final report was published on 17 December 2019 (the Inspection Report). The report contains a number of deliverables to address areas for improvement alongside two causes of concern.

The Brigade was required to develop a plan to address the two causes for concern as a matter of priority and a report was provided to the Commissioner's Board on 26 February 2020 setting out the Brigade's response.

Additionally, the Brigade was also required to prepare, update and regularly publish an action plan detailing how all recommendations are being actioned (or if the Brigade does not propose to undertake any action as a result of a recommendation, the reasons why the action is not being pursued). Report LFC-0351 appends the final version of the action plan for consideration.

## Decision

That the London Fire Commissioner approves the HMICFRS action plan appended to report I FC-0351

### **Summary**

Following Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) inspection of London Fire Brigade (from 22 July to 2 August 2019), the final report was published on 17 December 2019 (the Inspection Report). The report contains a number of deliverables to address areas for improvement alongside two causes of concern.

The Brigade was required to develop a plan to address the two causes for concern as a matter of priority and a report was provided to the Commissioner's Board on 26 February 2020 setting out the Brigade's response.

Additionally, the Brigade was also required to prepare, update and regularly publish an action plan detailing how all recommendations are being actioned (or if the Brigade does not propose to undertake any action as a result of a recommendation, the reasons why the action is not being pursued). A draft of this action plan was attached to the report to the Commissioner's Board on 26 February 2020 and this report now appends the final version for consideration.

#### Recommended decision

That the London Fire Commissioner:

Approves the HMICFRS action plan in appendix 1 to this report.

## **Background**

- 1. HMICFRS undertook an inspection of the London Fire Brigade from 22 July to 2 August 2019 and published the Inspection Report on 17 December 2019 setting out its findings in response to three questions:
  - a. How effective is the fire and rescue service at keeping people safe and secure from fire and other risks?

- b. How efficient is the fire and rescue service at keeping people safe and secure from fire and other risks?
- c. How well does the fire and rescue service look after its people?
- 2. The Inspection Report applied a graded judgement for each of the three questions.
- 3. Within the Inspection Report the HMICFRS identified two immediate causes for concern and required the Brigade to develop actions to address these immediate concerns by 28 February 2020. A report was presented to the Commissioner's Board on 26 February 2020 and the proposed actions to regarding these two causes for concern were submitted to the HMICFRS by 28 February 2020.
- 4. In addition, the Inspection Report also contained 25 areas for improvement and required the Brigade to prepare, update and regularly publish an action plan detailing how all recommendations are being actioned (or if the Brigade does not propose to undertake any action as a result of a recommendation, the reasons why the action is not being pursued).

## **HMICFRFS** action plan

- 5. All heads of service have been engaged with the Inspection Report and charged with developing an action plan from an early stage. A action plan addressing the causes of concern was presented to the Commissioner's Board on 26 February 2020, together with a draft action plan to address the wider areas for improvement identified by the HMICFRS.
- 6. Following the Commissioner's Board on 26 February 2020 further work was done to refine the deliverables and identify timescales for completion. The final draft HMICFRS action plan was circulated to the Mayor of London and Home Office on 17 April 2020 to support the April tranche of exception reporting on improvement actions arising from the Grenfell Tower Inquiry and HMICFRS reports.
- 7. This report contains the final HMICFRS action plan for approval.

## Monitoring and assurance of the action plan

- 8. Delivery of the actions contained within the attached plan will be monitored and assured by the GT / HMI Sub Committee of the Transformation Board, chaired by AC GTIRT, who will provide periodic updates to the Transformation Board.
- 9. Reporting to external stakeholders on the HMICFRS and Grenfell Tower actions will be provided by AC GTIRT through a consolidated report, provided on monthly basis or at an agreed frequency if different from the current monthly arrangement.

#### **Finance comments**

10. This report recommends that the action plan at Appendix 1 is approved. The financial impact of the action plan has been assessed and estimates for its implementation have been included as part of the transformation costs included in the final 2020/21 Budget report for the LFC (LFC-0324).

#### **Workforce comments**

11. Any issues which need input from staff side are dealt with as part of individual workstreams to deliver the actions identified in the action plan.

## **Legal comments**

- 12. Under section 9 of the Policing and Crime Act 2017, the London Fire Commissioner (the "Commissioner") is established as a corporation sole with the Mayor appointing the occupant of that office. Under section 327D of the GLA Act 1999, as amended by the Policing and Crime Act 2017, the Mayor may issue to the Commissioner specific or general directions as to the manner in which the holder of that office is to exercise his or her functions.
- 13. Section 1 of the Fire and Rescue Services Act 2004 (the FRSA 2004) states that the Commissioner is the fire and rescue authority for Greater London.
- 14. When carrying out its functions, the Commissioner, as the fire and rescue authority for Greater London, is required to 'have regard to the Fire and Rescue National Framework prepared by the Secretary of State (FRSA 2004, section 21).
- 15. Section 28 of the FRSA 2004 empowers the Home Secretary to appoint inspectors of fire and rescue authorities. In 2017 the Home Secretary appointed Her Majesty's Inspectorate of Constabulary (HMIC) as inspectors of fire and rescue authorities under this section and HMIC changed their name to Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS). The Policing and Crime Act 2017 sets out that HMICFRS will inspect and report on the efficiency and effectiveness of fire and rescue authorities in England.
- 16. Section 28A sets out that the inspection programme and framework requires the approval of the Home Secretary before the inspectors act in accordance with it; that the Home Secretary may, at any time, require us to carry out an inspection of a fire and rescue authority in England, all fire and rescue authorities in England, or all fire and rescue authorities in England of a particular type; that the HMICFRS may also carry out an inspection of a fire and rescue authority in England even though that inspection has not been set out in an inspection programme and the Home Secretary has not required them to do it.
- 17. HMICFRS is an inspectorate, and has powers to secure information, but no powers to give orders for change.
- 18. It is for the London Fire Commissioner, subject to the oversight arrangements in place from the Mayor, Deputy Mayor, Greater London Assembly and Home Secretary, to take action as a result of HMICFRS's recommendations.
- 19. This report and attached action plan set out the actions that the Commissioner intends to take in response to the recommendations of the HMICFRS.

## **Sustainability implications**

20. There are no direct environmental or sustainability implications associated with the contents of this report. However, some actions within the plan may have sustainability implications which will be identified and reviewed by the relevant action owner.

## **Equalities implications**

21. The London Fire Commissioner and decision takers are required to have due regard to the Public Sector Equality Duty (s149 of the Equality Act 2010) when taking decisions. This in broad terms involves understanding the potential impact of policy and decisions on different people, taking this into account and then evidencing how decisions were reached.

- 22. It is important to note that consideration of the Public Sector Equality Duty is not a one-off task. The duty must be fulfilled before taking a decision, at the time of taking a decision, and after the decision has been taken.
- 23. The protected characteristics are: Age, Disability, Gender reassignment, Pregnancy and maternity, Marriage and civil partnership (but only in respect of the requirements to have due regard to the need to eliminate discrimination), Race (ethnic or national origins, colour or nationality), Religion or belief (including lack of belief), Sex, Sexual orientation.
- 24. The Public Sector Equality Duty requires us, in the exercise of all our functions (i.e. everything we do), to have due regard to the need to:
  - a) Eliminate discrimination, harassment and victimisation and other prohibited conduct.
  - b) Advance equality of opportunity between people who share a relevant protected characteristic and persons who do not share it.
  - c) <u>Foster good relations</u> between people who share a relevant protected characteristic and persons who do not share it.
- 25. Having due regard to the need to <u>advance equality of opportunity</u> between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to:
  - a) remove or minimise disadvantages suffered by persons who share a relevant protected characteristic where those disadvantages are connected to that characteristic;
  - b) take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it;
  - c) encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.
- 26. The steps involved in meeting the needs of disabled persons that are different from the needs of persons who are not disabled include, in particular, steps to take account of disabled persons' disabilities.
- 27. Having due regard to the need to <u>foster good relations</u> between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to—
  - (a) tackle prejudice, and
  - (b) promote understanding.
- 28. An Equality Impact Assessment (EIA) has not been undertaken.
- 29. An EIA was not required because there are no direct implication from this report, however, some actions within the plan may have equality implications which will be identified and reviewed by the relevant action owner.

command competence at all leve line with national guidance, and t determine what arrangements it	Develop a plan to reassess incident command competence at all levels in ine with national guidance, and to determine what arrangements it will out in place when staff fail to achieve the standard set by the Brigade.	To ensure all level 1 incident commanders have received acquisition training in line with national operational guidance and competence is assessed every two years.	1a	All level 1 incident commanders will have acquisition training and be assessed by December 2021.	Commanders will be trained by December 2021.	As of 20 March 2020, 941 of 1391 (68%) Level 1 incident commanders have received incident command training in the last 12 months. This figure includes 220 Firefighters who have been authorised to act up to Leading Firefighters when required.  Previously, only staff acting up to Leading Firefighters on the reporting date were included in this data. Now, all of these staff are included. 150 of these staff are booked to attend a Level 1 Incident Command training at the Fire Service College, commencing in July 2020.  When we last analysed levels of accreditation, on 11 March 2020, 183 of the trained Level 1 incident commanders were accredited. This constitutes 19% of all trained Level 1 incident commanders.  In accordance with the LFB Transformation Delivery Plan, we are on course to ensure that all Level 1 Incident Commanders will be trained by December 2021.	Assistant Director Training and Professional Development	Not applicable	December 2021	dute	
			1b	Revalidation of level 1 incident command is completed by September 2021.	January 2019 to December 2019: Design of level 1 incident command revalidation process.  May 2019 to January 2020: Pilot of level 1 incident command revalidation. December 2019: Completion of level 1 incident command revalidation design.  January 2020: Revalidation of level 1 of incident command is implemented.  September 2021: All level 1 incident commanders will have been assessed through the revalidation process.	Due to COVID-19 there is a likely three month delay on all Level 1 Officer having been assessed. This will be constantly reviewed to minimise overall project impacts.		January 2019	September 2021	December 2021	
			1c	Improved Level 1 incident command training will be aligned to the following guidance by September 2020: i) National occupational standards ii) Major incident protocols iii) JESIP principles iv) NOG guidance	December 2019 to January 2020: Gap analysis and review of level 1 incident command course.  February 2020 to May 2020: Design of new level 1 incident command course to meet the review objectives which includes being NOG compliant.  June 2020: Pilot of level 1 incident command in a modular approach – 3 courses which include Basic (Ff-LFF), Moderate (Sub O), Complex (Stn O) July 2020 to August 2020: Completion of level 1 incident command course design.  September 2020: Implementation of new level 1 incident command courses for all newly promoted officers and those firefighters wishing to act up to leading firefighter.	Work continues to deliver the revised course in line with agreed timescales, as it stands this action remains on target. Any impact of COVID 19 will be better understood in May/June. March 2020: Report on findings of review and recommendations for future acquisition training within 2020/21 (and beyond) via internal (Babcocks) or external provider.  March 2020 to Dec 2020: Delivery of 3 x Level 3/4 Incident Command and Strategic Response Arrangements workshops to all Level 3/4 Officers.  March 2020 to June 2020: Design of one day training course (to be delivered quarterly) for level 3/4 incident command as continuing professional development training.  July 2020 onwards: Delivery of one day training course (to be delivered quarterly) for level 3/4 incident command as continuing professional development training for all officers.	Report submitted to Operations Directorate Board on 25 March. Approve for minimum training requirements agreed. Training Needs Analysis now being carried out with all relevant staff to ascertain specific individual training requirements and overall costs. Delivery of Strategic Response Arrangement workshops and quarterly continuous professional development days now impacted by COVID-19. Minimum three month delay expected.		December 2019	July 2020	
		4	To set up a panel to develop personal development plans for anyone who fails revailidation at any level of incident command. This can include taking them "off the run".	4	To set up the Incident Command Development Panel by January 2020.	The Incident Command Development Panel currently reviews failed revalidation at level 1 of incident command. The panel will continue to review failed revaildation at all levels of incident command once revalidation has been rolled out.	This action is completed.	Assistant Commissioner Operational Policy and Assurance	January 2020	Complete	January 2020
2	Develop a plan to remove gaps in all risk-critical skills training	5	To deliver both emergency vehicle driver training and blue light training for car drivers within the four year cycle in place.	5a	All required staff to have Emergency Response Driving Revalidation (Appliance) training by January 2021.	To date, 77 per cent (1,557 out of 2,022) of drivers have been trained for Emergency Response Driving Revalidation (Appliance). We are on target to deliver the full training requirement by January 2021.	To date, 88 per cent (1,506 out of 1,721) of drivers have been trained for Emergency Response Driving Revalidation (Appliance). We are on target to deliver the full training equirement by January 2021.  The number of drivers included in the data has decreased since the last update, following clarification from Central Operations Department regarding staff who are no longer required to drive as part of their role.	Assistant Director Training and Professional Development	June 2017	January 2021	
				5b	All required staff to have Emergency Response Driving Revalidation (Car) training by January 2022.		To date, 76 per cent (234 out of 309) of drivers have been trained for the Emergency Response Driving Revalidation (Car) training and we are on target to deliver the full training requirement by January 2022.		January 2018	January 2022	
3	The Brigade should ensure all its firefighters have good access to relevant and up-to-date risk information.	6		6	To ensure that all Fire Appliances have the latest hardware and software installed in them, to ensure that crews can access the latest risk information.		All Appliance tablets now have access to the Chemdata app and the latest Chemdata information. However threre is now a high probability that the June 2020 date referred to in the previous update (for removing old Vehicle Mounted Data System (VMDS) Mobile Data Terminals (MDT)) will not be met. We will be working with fleet to provide a revised date by which works can start, after which we anticiate it taking 3 months to complete. Work to repalce the old VMDS MDT's has been suspended as fleet/Babcock focus upon resourcing technicians to work on front line appliances. This is a direct result of COVID-19 and its implications on staffing/resources. Once Babcock are able to focus on these modifications, Command Units and Fire Rescue Units will have new MDT and tablets fitted. Equipment has been provisioned and the fit out schedule is contolled by Fleet. All frontline pumping appliances have new MDTs and tablet devices running the latest Airbus ScResponse software with risk data updated frequently via station WiFi. ICT are working with Fleet on a schedule to fit callsign enabled vehicles with Satilite Navigation enabled with ScGuide messaging software.	Officer	Awaiting confirmation of availabily post COVID-19. The Brigade should make sure it addresses effectively the burden of false alarms.	10	10a	To establish a dedicated team to push forward call filtering , partnership working and interventions by stations to promote better fire alarm management.	The LFB recognises the immense impact of unwanted fire signals from automatic fire detection and has committed a dedicated team of four to work with premises with high levels of repeat calls and develop a strategy to reduce unwanted fire signals in other ways. There were some delays in recruiting the team due to market pressures and this has set back the original timescales for review of the team's work by approximately eight months. It is clear there is no single solution to the problem and a strategy is being developed which incorporates; effective call filtering by LFB control officers, Remote Monitoring Centre gold standards, improving Design and Installation standards, exploring nil attendance risk and benefits, cost recovery and training for inspecting officers. Business engagement is underway, particularly in healthcare, in addition to individual work with premises with high levels of repeat calls.	nmissioner Fire	January 2020	January 2020	The strategy should be ready June 2020 subject to CoVID pressures

			18b	To ensure all contracts are working as effectively as possible with contract service delivery being either satisfactory with value for money being delivered or further 'contract specific remedial action plans' in place to address any shortfalls in effectiveness.	The first part of this action (i.e. contract service delivery being satisfactory and value for money being achieved) will be supported by the implementation of the contract management arrangements action plan when approved and implemented. With regards to the second part (i.e. contract specific remedial action plans), the nature of this action is such that it is an ongoing mechanism to be used from time to address any emerging significant shortfalls that have not been resolved by the business as usual contract relationship and contract management meetings framework. Those liaison frameworks will be improved by the content within Delverable 18a. The contract specific action plans of Deliverable 18b will be cited in the arrangements review (18a) as an available option to use where appropriate in future. The actual detail in the contract specific actions plans are not forseeable at this stage, but the plans will be developed as bespoke to emerging shortfalls in the future.	une 2020		December 2021 N/A
		19	19a	The work with the Greater London Authority collaborative procurement team to achieve a single team collaborative procurement model will be delivered in three phases. Phase 1: Jan – June 2020 (Collaborative procurement improvement)	The target completion dates for all three phases are subject the Transport for London led project and are subject to revuiew accordingly. Due to COVID-19 and a review by Transport for London of the Greater London Authority collaborative procurement programme, the original target completion date for Phase One of end of June 2020 has now been revised by the Greater London Authority to the end of July 2020. A number of actions have been completed including the drafting of communications plan, brochure, standard Operating Procedures; other actions are	anuary 2020	June 2020	July 2020
			19b	The work with the Greater London Authority collaborative procurement team to achieve a single team collaborative procurement model will be delivered in three phases. 			19d	Create a method for evaluating the effectiveness and efficiency of all strategic collaboration projects and roll out to the organisation.	April 2020 – June 2020: Collaborative Benefits Evaluation process formulated and agreed by Blue Light Collaboration Team.  June 2020 – August 2020: Collaborative Benefits Evaluation recording processes formulated and agreed by Blue Light Collaboration Group.  September 2020: Collaborative Benefits Evaluation process goes live with tri service communication and oversight by officers at LFB.	pril 2020	September 2020	
15	The Brigade should make sure it has good business continuity arrangements in place across all parts of the organisation and that they are understood by staff. The plans should take into account all foreseeable threats and risks.	20	20	Confirm the approach to business continuity for individual fire stations and satellite teams and ensure affected staff understand the plans.	The Brigade has business continuity plans in place for all departments, including one for Fire Stations. The focus for this action is on awareness of what the Brigade's business continuity arrangements are, and making sure that all staff understand them. To this end, the business continuity team will include awareness sessions for Area Deputy Assistant Commissioners and Borough Commanders initially, and consider rolling these out to Station Commanders and Area Teams. We will also look to use the intranet site (Hotwire) to help promote business continuity awareness. At the moment, the business continuity team is engaged full time on COVID-19 meaning that the lead in time for this will be longer but work should hopefully commence on this by June 2020.	une 2020	December 2020	
16	The Brigade should make sure it has strong enough plans in place to address financial challenges beyond 2020 and secure an affordable way of managing the risk of fire and other risks.	21	21	Improve financial sustainability through the budget process for 2021/22 and consider clearer link between risks and resource allocation.	Initial discussions underway to develop the budget process for 2021/22. The budget process, together with the Mayor's budget guidance, will be reported to Directorate Boards and then on to Commissioner's Board in July 2020. The budget report is being programmed to be reported to CB on 1 July, however the final date will be subject to publication of the Mayor's Budget Guidance 2021/22. The deadline for the budget submission to the Mayor is expected to 30 November 2020, in line with previous years, and will be confirmed in the Mayor's Budget Guidance 2021/22.	uly 2020	November 2020	30 November 2020
17	The Brigade should make sure its values and behaviours are understood and demonstrated by all staff.	22	22	Develop a behavioural framework based on the organisation's purpose, vision and strategy. Behaviours will focus on selflessness, togetherness and accountability.	The behavioural framework has now been approved by Commissioner's Board.  The framework is based on our three core behaviours Compassion, Togetherness, and Accountability and ties directly into our purpose to be trusted to serve and protect London.  We are in the process of designing a communications plan, which includes a development approach, for people to understand and display our new behaviours. We are piloting embedding the framework in our new approach to performance management for Top Management Group before rolling out to the rest of the organisation. We are also planning an approach to embed our new behaviours into all people aspects of the LFB.	December 2019	January 2020	January 2020

18	The Brigade should make sure all staff understand and know how to get support after a traumatic incident.	23	Review the policy 0915 - Recognising and coping with potentially traumati events.		Policy 0915 - Recognising and coping with potentially traumatic events, has been reviewed and is fit for purpose. All station based watches have received a half day training on the subject of this policy. This included the post critical incident procedures that are carried out on station and the follow up support / contact made by the Counselling and Trauma team. Information for all staff on the Counselling and Trauma Serices Hotwire pages has been reviewed and is up to date. This action is complete.		December 2019	April 2020		April 2020
			23v Produce a clear communications pla on counselling and trauma service for		This activity is not due to commence until June 2020	Assistant Director People Services	June 2020	September 2020		
			all staff.  Explore the feasibility of introducing dedicated Peer Trauma Support Gro to support the work of Counselling and Trauma Services (CTS).		A team of trained Mental Health First Aiders is being established across LFB. A series of training from Mental Health First Aid England has commenced. A process of continuous recruitment to this scheme is ongoing.	Assistant Director People Services	December 2019	April 2020	Autumn 2020	
					The next stage is to select appropriate volunteers to train in peer trauma support. The logistics of deploying of these volunteers has been identified. The content of the support sessions to be provided post critical incident and the appropriate training is being identified.					
19	The Brigade needs to train all staff properly for their roles, including developing all levels of leadership and management competence.	24	Establish a working group with representatives from Training & Professional Development department, Central Operations & People Services department.		The working group meeting was booked in January, and took place on 18 February 2020, hence this action is complete. The additional work relating to this topic is being picked up under Deliverable 24b (below).		January 2020	February 2020		February 2020
			24b Create a report to propose a new policy or guidance note on how Statement of Training Requirements collated.	is	A paper was being prepared for a Commissioner's Board meeting in April which was going to propose a list risk critical training together with renewal/refresh periods. The paper was also going to discuss the consequences of individual's training lapsing and propose a range of options.	Assistant Director Training and Professional Development	February 2020	April 2020	July 2020	
					The collation of the risk critical training information has taken longer than expected as we have been consulting with other fire and rescue services and seeking advice of what consequence management stance they take. The plan is to deliver the report to a Commissioner's Board meeting in July.					
20	The Brigade should extend its new maintenance of competence programme to all operational staff groups as intended. It should make sure this programme can assure the brigade of the competences held by staff.	25	Deliver phase 2 of the DaMOP project covering competency frameworks for all operational staff groups.		Phase 2 remains on target to be delivered on 1 July 2020 for all staff groups. Piloting has been extended to end of May 2020 as a result of potential delays owing to social distancing measures and reduced availability of some staff engagement groups involved in the pilots. There is no indication that this will delay the roll out of phase 2 at this time.	Assistant Director Training and Professional Development	July 2019	July 2020		
21	The Brigade should identify and overcome barriers to equal opportunity, so that its workforce better represents its community. This includes ensuring staff understand the value of positive action and having a diverse workforce.	26	Develop and implement a new Diversity and Inclusion strategy and action plan.		The inclusion strategy has gone through considerable internal engagement and will be presented to the Commissioner's Board for approval in April. The strategy is being repositioned as our Togetherness Strategy and underpins our transformation plan.	Assistant Director People Services	January 2020	Ongoing through 2020	Q4 2021	
22	To ensure all fire stations have suitable facilities for women.	27	To ensure all London Fire Brigade buildings have suitable privacy facilities to accommodate both restinand washing for female firefighters.	ng	In the last 12 months Property have increased the number of privacy rooms by 20 and also increased the privacy shower/washing facilities by 31 at various stations. Work will continue to be completed and will endeavour to increase the number of privacy facilities across the estate. There are currently seven projects this financial year 20/21 planned to increase the number of privacy facilities. These works are ongoing for future years.	Head of Property	April 2020	Ongoing		
23	The Brigade should make sure it has an effective system in place to review individual staff performance and development.	28	Introduce new performance management processes for all employees.		A new approach to Performance Management was agreed by the Commissioners Board on 26 February.  Conversations have taken place with Prospect, FBU, FOA, GMB and UNISON, all of which are having the opportunity to feedback on this. This is consistent with Transformation Delivery Plan to introduce new performance management processes for leadership levels.  The first stage of the process started in April 2020 with a 360 questionnaire launch for the Top Management Group (staff group).	Assistant Director People Services	October 2019	End March 2021	April 2022	
24	The Brigade should make sure that it selects, develops and promotes staff in an open, accessible and fair way, including temporary promotions.	29	Review the core criteria for selection and promotion in line with the behavioural framework .		We are in the process of analysing the current criteria and determining which behaviours align to which level of Grade and Rank across operational and non-operational staff.	Assistant Director People Services	March 2020	Ongoing through 2020	Ongoing through 2020	
			Establish a promotion board to assur promotion processes.	re	This has been set up as of 11 March 2020 and will run as a monthly meeting.	Assistant Director People Services	March 2020	March 2020		March 2020
			29c Ensure all assessors are appropriatel skilled, trained and supported to ma fair and transparent decisions.		We are in the process of rolling out recruitment interview training which includes bias awareness to our Assessment Team via an external training company SHL . Four people have been trained so far and another 12 are due to be trained in the next ten working days. We will then create and run our in house training work shops to cascade this quality throughout LFB.		April 2020	March 2021		

The Brigade should put in place an open and fair process to identify, develop and support high-potential staff and aspiring leaders.	30a	To develop a performance and talent framework for roll out at the beginning of May 2020.	The performance and talent framework is being piloted with Top  Management Group for the start of the 2020/21 year after Commissioners  Board agreed recommendations (26 Feb 2020). The first stage has taken  place where 360 questionnaires have been sent. Further training on this  process is being developed for launch in May.	Assistant Director People Services	January 2020	May 2020	
	30b	To develop a transparent performance matrix which allows the brigade to identify high potential individuals who are ready for promotions or require further development.	The performance matrix has been written and is being consulted on ready for May launch. Conversations have taken place with Prospect, FBU, FOA, GMB and UNISON, all of which are having the opportunity to feedback on this new process before further roll out to the wider brigade. Non-operational staff development working group has been established with the first meeting scheduled for end of May 2020.		January 2020	Q4 2022
