Freedom of Information request reference number: 8372.1

Date of response: 27 February 2024

Request:

I am currently on the look for fire damaged properties that have occurred in the harrow area in the past 30 day.

Response:

A full list of incidents attended by the LFB is published via the [London Datastore](#) and can be accessed via this link: <https://data.london.gov.uk/dataset/london-fire-brigade-incident-records>.

If you download the '[LFB Incident Data from 2018](#)' dataset, you can search for the most recent incidents using column B, 'DateOfCall'. The dataset is updated monthly and you can filter to see fire incidents that have occurred in Harrow using column G, 'StopCodeDescription' and column Q, 'IncGeo_BoroughName'.

Further details about incident locations:

Non-residential properties

Full postcode location is included in column L, 'Postcode_full';

We do also publish the Unique Property Reference Number (UPRN) for each incident in column N. This is a unique numeric identifier for every spatial address in Great Britain. A web search for "UPRN" will provide you with various tools which can be used to identify the full postal address linked to the UPRN.

Residential properties:

A part postcode is published in column M, 'Postcode_district';

We do also publish the Unique Street Reference Number (USRN) for each incident in column 'O'. This is a unique numeric identifier for every street in Great Britain. A web search for "USRN" will provide you with various tools which can be used to identify the street address linked to the USRN.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#).
