

**Freedom of Information request reference number:** 7986.1

**Date of response:** 7 November 2023

**Request:**

*Please could you provide me with a copy of the original (2004) Fire & Safety Report for the Vista Building, 30 Calderwood Street, Woolwich SE18 6JH prior to the sale of the flats to the general public following the refurbishment of the building in 2004.*

**Response:**

Our Fire Safety Regulatory Team have provided me with the documentation we hold for this building.

We do not hold a copy of the Fire & Safety Report (Fire Safety Audit) for this building from 2004.

Our retention period for fire safety records is 6 years. The earliest record we have of an audit on the Farynor system (which is the system used by the Fire Safety team) is from 2006. The earliest documentation we hold is from 2010.

I hope you find this information of use. Should you have any further questions please do let me know.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#)
