*\*Primary fires are more serious fires that harm people or cause damage to property. Primary fires have one or more of the following characteristics:*

- (a) all fires in buildings and vehicles that are not derelict or in outdoor structures;*
- (b) any fires involving casualties or rescues;*
- (c) any fire attended by five or more appliances.*

*Secondary fires are less serious fires. Secondary fires are the majority of outdoor fires including grassland and rubbish fires (unless they involve casualties or rescues, property loss or unless five or more appliances attend). Fires in derelict buildings and vehicles are recorded as secondary fires.*

The LFB also publish further details of every incident responded to since January 2009 through the London Datastore. These can be accessed via the following link: <https://data.london.gov.uk/dataset/london-fire-brigade-incident-records>
