

Freedom of Information request reference number: 6090.1

Date of response: 29 October 2021

Request:

Please send me:

- 1) The number of rescue call-outs where a domestic cat has been stuck or trapped in a tree over the last 5 years*
- 2) If available, the region where the call-outs from request 1 were made.*

Response:

The LFB publish details of animal rescue incidents attended by LFB (since 2009) on the London Datastore. This information can be accessed via the following link:

<https://data.london.gov.uk/dataset/animal-rescue-incidents-attended-by-lfb?q=anim>

If you download the Excel spreadsheet '*Animal Rescue incidents attended by LFB from Jan 2009*', you can filter by animal (such as "cat") using column 'K'. You can look for incidents in specific Boroughs or Station Grounds using columns 'T' and 'U'. The 'FinalDescription' in column 'J' will then provide you with a description of the incident (such as whether the cat was in a tree).

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#).
