Response:

In response, as we routinely get asked for information about the number of lift entrapments attended by the Brigade, we have published this data on the [London Datastore](#) to assist those who require it.

The data is provided for three calendar years (36 months) and is updated monthly. If you are looking for a particular building/address and this does not appear in the list, you can assume that the Brigade has not attended a 'shut in lift' (lift entrapment) release incident at the address.

The information is accessible via the following link:

<https://data.london.gov.uk/dataset/shut-in-lift-releases--lift-entrapments--attended-by-lfb>

I hope you find this information of use. Should you have any further questions please do let me know.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#).
