

**Freedom of Information request reference number:** 6935.1

**Date of response:** 21/10/2022

**Request:** I was provided your email by the LFB Press Office Team. I manage the analytical work within our Community Safety department within Greenwich. Currently, we are doing work around autumn nights - especially firework related hazards/threats which have a direct demand on LFB locally. I have accessed the publicly available LFB datasets but there is specific data that would be incredibly useful for our Local Intelligence Products.

I'm assuming the data is recorded on the Incident Recording System. The majority of the fields below are existing fields in the IRS. Can I request the below information as a .csv/excel file: *Primary fires where the source of ignition was 'fireworks'*

- Date of incident (can this be from 01 Jan 2018 onwards?)
- Borough = Greenwich
- Type of location (e.g. Dwellings/Road Vehicles etc.)
- Victim type description (e.g. Fatal/Injury)
- Hour band
- Incident location type
- Accidental or deliberate
- Cause of Fire
- Fire start location
- Victim age (provided in bands)
- Victim gender
- INJURY\_TYPE
- INJURY\_SEVERITY
- FIRE\_RELATED
- CASUALTY\_TOTAL

**Response:** As requested, please find attached information regarding primary fires where the source of ignition was fireworks. We have released all the data we have. However, you will note that we have not provided information under "incident location type" as we do not have this category on our incident management system.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website:
