

Freedom of Information request reference number: 7069.1

Date of response: 21 December 2022

Request:

The Trampery is located at the same building as Sainsbury's 245 Old St, London N1 6HL Their fire system went off several times this year only, which trigger the adjacent commercial properties panels as they all share the same fire exit route. Although, Sainsbury's has confirm that they have taken action to reduce those faults, those are keep happening. We have a record of a few of those this year. Some of them happened during the night and the alarm went off for a few hours disturbing the residents that live above. Another one happened during the day and caused a full evacuation to the office next door. (those 2 incident happened just this month). We would like to ask for: Fire panel maintenance certificates, false alarm logs and ideally CCTV footage that confirm those, repairs report as they confirmed that an engineer "fixed" the issues.

Response:

Please see my response to your queries in turn below:

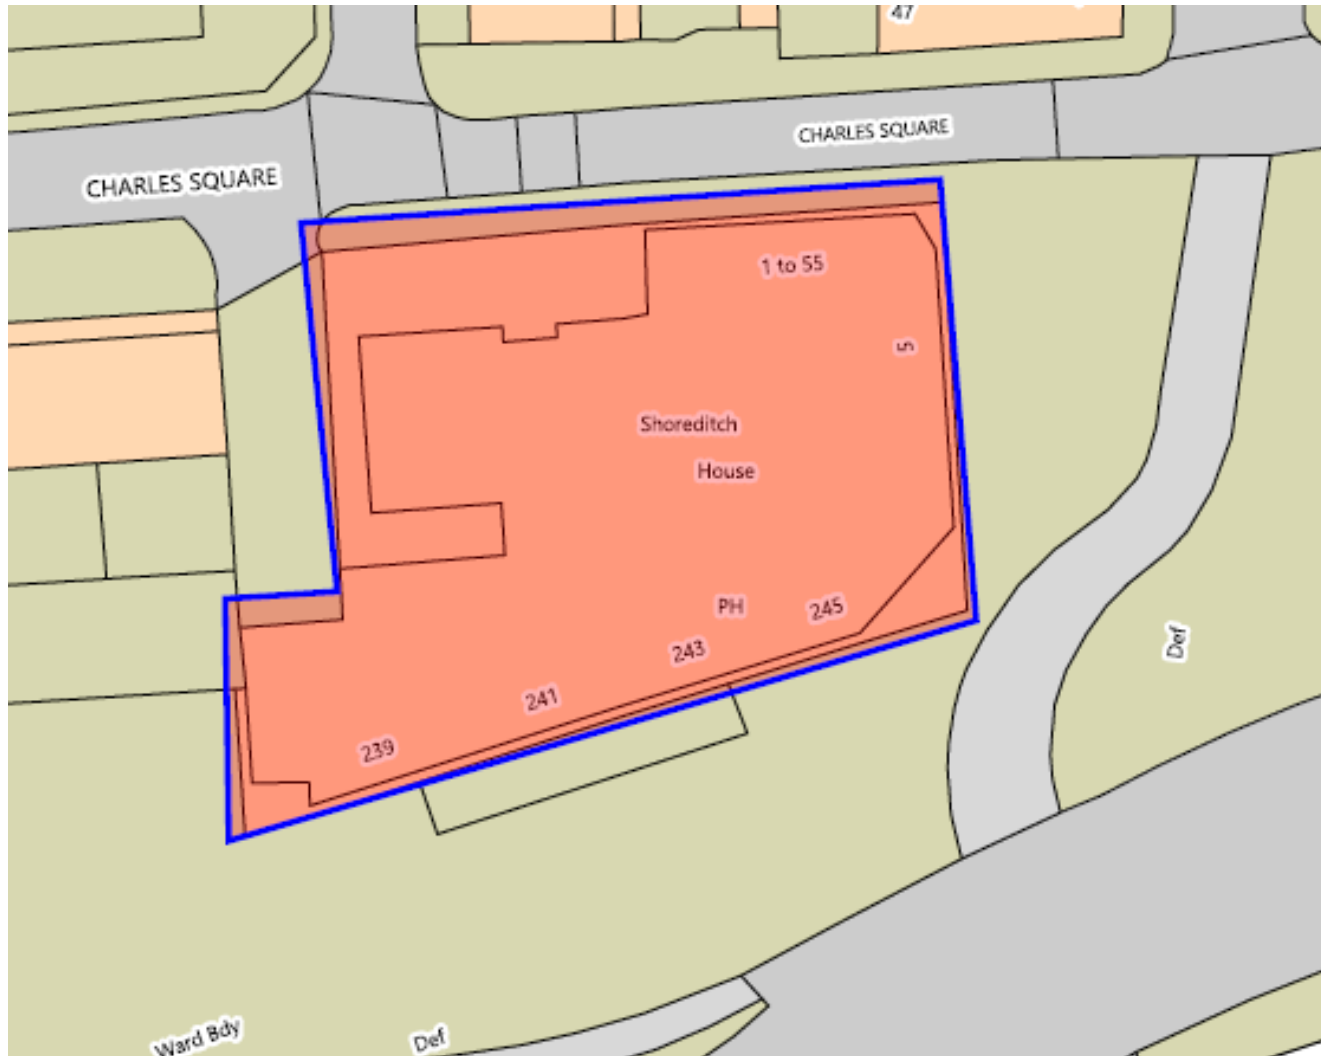

[Fire panel maintenance certificates](#)

The Brigade does not provide or carry out fire panel maintenance services. This would be the responsibility of the responsible persons (RP). Whilst on some occasions the RP may provide supporting documents to a Fire Safety Inspecting Officer (IO) we are under no obligation to retain them.

Our Fire Safety Regulatory team have confirmed they hold no fire panel maintenance certificates for Sainsbury's 245 Old St, London N1 6HL.
