

Freedom of Information request reference number: 7279.1

Date of response: 13 March 2023

Request:

How many tower blocks has the London Fire Brigade evacuated or part evacuated in each of the last two years, please give the address and two separate figures for each year ?

In each case, please state the reason for the evacuation along with the address and date of the incident.

When the reason was a flood/ floods or a leak please state the cause and origin of the leak, giving the address and date of the incident.

Have there been any fatalities caused or discovered as a result of these incidents and evacuations? Please give details including the address and date.

If not covered in previous responses - How many callouts has the fire service received due to leaking or faulty sprinkler systems in tower blocks in the last two years, please give the address, date of incident and as many details as possible about evacuations, damage and recommendations from the fire service.

Response:

Please see my response to each of your queries in turn below:

How many tower blocks has the London Fire Brigade evacuated or part evacuated in each of the last two years, please give the address and two separate figures for each year ?

We have two fields on our Incident Management System to record persons evacuated:

- 'How many people evacuated without assistance'*
- 'How many people assisted by Brigade in their evacuation'*

The tables below show the number of incidents that the LFB attended at purpose built flats (of any height) and it was recorded that *'people [were] assisted by Brigade in their evacuation'*

Fire incidents the LFB attended at purpose built flats (of any height) where 'people [were] assisted by Brigade in their evacuation'

I have included a list of 365 of the 370 incident numbers to this response. I have withheld five incident numbers under [section 40 of the FOI act, personal data](#). These incidents relate to suicide attempts and individuals could potentially be identified from the address data published online if we provide you with the incident numbers for these incidents.

Address data:

The LFB publish the details of every incident responded to since January 2009 online. Information is provided for when and where the incident happened, and the type of incident dealt with, and can be accessed through the London Datastore: <https://data.london.gov.uk/dataset/london-fire-brigade-incident-records>.

The most recent information (for incidents that have occurred in last three years), can be downloaded via the Excel spreadsheet '[LFB Incident data - last three years](#)':

Incident location:

You can sort by London Borough and Ward using columns 'Q' to 'U'. Information for a particular LFB station can be found in column 'AC'

Non-residential properties

Full postcode location is included in column 'L';

We do also publish the Unique Property Reference Number (UPRN) for each incident in column 'N'. This is a unique numeric identifier for every spatial address in Great Britain. A web search for "UPRN" will provide you with various tools which can be used to identify the full postal address linked to the UPRN.

Residential properties:

A part postcode is published in column 'M';

We do also publish the Unique Street Reference Number (USRN) for each incident in column 'O'. This is a unique numeric identifier for every street in Great Britain. A web search for "USRN" will provide you with various tools which can be used to identify the street address linked to the USRN.

In each case, please state the reason for the evacuation along with the address and date of the incident.
