

**Freedom of Information request reference number: 7751.1**

**Date of response:** 30 August 2023

**Request:**

*Hi I wonder if you can help me. I'm writing a guidance sheet for ebike and escooter users in a block of flats. I have the figure for fires attributed to ebikes and scooters I wonder if you have any breakdown as to how many were caused by inferior batteries or components.*

**Response:**

Please see our response to your questions set out below:

We do not hold a breakdown of inferior batteries / components associated with ebike and scooters.

Safety information regarding e-bikes and e-scooters is available via the LFB website using the following link:- <https://www.london-fire.gov.uk/safety/the-home/e-scooters-and-e-bikes/>

You could check the recall list from the following websites:- Electrical Safety First and UKAFI (UK Association of Fire Investigators). They may hold some information related to manufactured products.

I hope you find the information provided of use.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#)
