

Freedom of Information request reference number: 8449.1

Date of response: 13/03/2024

Request:

I would like the information to be in relation to flooding incidents caused only by severe weather (heavy rainfall).

1. I would like the total number of flooding incidents recorded by the fire and rescue service, broken down by month, for the calendar years 2013 to 16 January 2024

2. In a separate tab I would like details of each flooding incident. Please include:

Date of incident

Time of day incident reported

Incident duration (minutes)

Location (please include longitude and latitude and local authority if available)

Total number of buildings affected

Total number of dwellings affected

Total number of firefighters injured, seriously injured or killed

Response:

Our Data team have put together the attached spreadsheet with the list of flooding incidents recorded broken down by month, for the calendar years 2014 to 16 January 2024.

The second sheet contains;

Date and time of incident

Total number of addresses affected – buildings/dwellings – The number of buildings affected is not always filled out during an incident so there may not be many incidents with more than 1 building affected.

Total number of firefighters injured, seriously injured or killed

Location - longitude and latitude

Incident Duration

It is my understanding that we only started to record flooding sub groups such as weather related flooding in 2014 so do not hold the data prior to this.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website:

<https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>
