

Freedom of Information request reference number: 8937.1

Date of response: 04/09/2024

Request:

I request the following information: The number of fire vehicles within the boroughs of Bexley, Havering, and Hounslow broken down by year from 2015 to 2024. Would it be possible to provide this information in an excel file with the following data included: 1) The different types of vehicles in the fire brigade (E.g. fire boats, helicopters, and fire engines) 2) The different types of of fire engines (E.g. Type 1, Type 2, etc.)

Response:

The London Fire Brigade publishes a fleet list online from via the London Datastore. This information covers **2019-2024** and can be accessed through the following link:
<https://data.london.gov.uk/dataset/london-fire-brigade---fleet-list>.

For **2015-2018**, I have attached these spreadsheets to this document, please see below.

Due to the continual threat levels to national security, we have made a decision to withhold the vehicle registrations and locations of our fleet (under [section 24\(1\) – National Security of the FOI act](#)), therefore the locations have not been included in this response.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process, please see the guidance we publish about making a request on our website:
<https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us>
