Please send me fire and incident reports for each incident

Individuals and organisations affected by an incident that was attended by London Fire Brigade since 2007 can request a 'fire report' which, for fires that involve buildings, vehicles, or those that cause injuries, provides more details about the incident and the cause of the fire where known.

Fire reports are not available under the freedom of information act (FOIA) as they are considered a chargeable service and, as such, will incur a fee. As a result they are exempt via [Section 21 of the FOIA - Information accessible to applicant by other means](#).

If you do want to go ahead and request a copy of a fire report, I must also advise that you may not be eligible to receive a copy. However, if any eligible party (such as the owner/a tenant/local borough council/insurance firm or loss adjustor) requests the fire report document, and is willing to share it with you, then we would be able to provide consent for them to do this.

Further information about how to obtain a LFB incident report is published on our website and can be accessed through the following link: <https://www.london-fire.gov.uk/about-us/services-and-facilities/services-we-offer/incident-reports/>

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>
