

Freedom of Information request reference number: 8446.1

Date of response: 11/03/2024

Request:

Will you please provide me with: A list of all of the names and addresses of all the listed buildings in your covered area that have had fires in the past five years The number of listed buildings in your covered area that have had fires each year for the last five years The number of fires in any buildings, listed or not listed, that have occurred in your covered area over the last five years.

Response:

We do not record the specific information you have requested on our Incident Management System (IMS) as there is no breakdown of property type by listed buildings.

However, our Data team are able report on heritage sites with a count of primary fires within 15m of their location.

As an example, I have attached a link to a similar FOI request dated September 2023 and our response. If you would like to request this information and we could provide you with data on heritage sites with a count of primary fires within 15m of their location to cover the end period of 2023.
