Freedom of Information request reference number: 7591.1

Date of response: 10 July 2023

Request:

I am very concerned about the Lambeth Council proposals for restricting access and restricting traffic flow in Streatham Wells area.

I wish to see the risk assessment, performed in conjunction with the emergency services, to see what mitigation will be put in place when the planned traffic chaos is implemented where I live, in Streatham. I believe prompt attendance by fire services, ambulance and police will be adversely effected / impossible, when the proposed plans are actioned.

Response:

We do not hold the specific information you have requested. The LFB do not carry out joint risk assessments for Low Traffic Neighbourhood (LTN) notifications.

If we receive a LTN notification from a local authority, we would review the request and ensure station staff are aware of road closures, temporary lights and/or restrictions and identify alternative routes or access points for fire appliances.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request [on our website](#).
