

Freedom of Information request reference number: 7777.1

Date of response: 01 September 2023

## Request:

Can I please request the following information under the Freedom of Information Act.

- 1) The number of fires that the service responded to in listed buildings (to include Grade I, Grade II\*, Grade II) between January 2018 and August 2023 (or the latest available date).
- 2) The names and addresses of the buildings referred to in Q1.
- 3) If possible, information on whether each fire referred to in Q1 was considered deliberate.

## Response:

We do not record the specific information you have requested on our Incident Management System (IMS) as there is no breakdown of property type by listed buildings.

However, our Data team are able report on heritage sites with a count of primary fires within 15m of their location.

The table below shows the count of all primary fires attended within 15m of a heritage site since 2018 broken down by the supposed motive:

| Heritage site grade | Count of primary fires within 15m | Motive recorded as 'accidental' | Motive recorded as 'deliberate' | Motive recorded as 'not known' |
|---------------------|-----------------------------------|---------------------------------|---------------------------------|--------------------------------|
| 1                   | 18                                | 17                              | 0                               | 1                              |
| II                  | 1,281                             | 1,138                           | 90                              | 53                             |
| II*                 | 126                               | 109                             | 12                              | 5                              |
| Total               | 1,425                             | 1,264                           | 102                             | 59                             |

Please note, there were 1,189 primary fires attended in total however some of the fires may have been nearby more than one heritage site so the table above includes these duplicates fire counts.

I have attached a list of the heritage sites that had the fires within 15m to this request.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website.

| Name  | Grade |
|---|-------|
| 1 And 2, Whitchurch Road W11  | II    |
